

# SUIJIN

## Junmai

Asabiraki Co., Iwate Prefecture

### SAKE DETAILS:

Rice: Varieties local to Iwate Prefecture

Sake Meter Value: +10

Acidity: 1.5

Alcohol: 16-17%

### ABOUT "JUNMAI" STYLE SAKES

The term *Junmai* is constructed of two kanji that together mean "pure rice." This means that the brew cannot contain any ingredient beyond the principal four of rice, water, yeast and koji. Most *Junmai* sakes use rice polished to at least 70%, but no legal mandate exists. *Junmai* style sakes tend to be richer and rounder, while emphasizing more savory characteristics.

### ABOUT THE BREWERY

Asabiraki has been brewing high quality sake in the northern Iwate Prefecture since the Meiji Restoration period of the late 19<sup>th</sup> century. The brewery was founded by Genzo Murai, a samurai and member of the Nanbu Clan. "Asabiraki" originates from a poet's blessing of the departure of a ship. This blessing is found in the Manyoshu, the oldest surviving collection of classical Japanese poetry.

The large prefecture of Iwate is home to a guild of renowned brewmasters called the *Nanbu Toji*. These craftsman have been perfecting their art of brewing for over 300 years. Still today, many are recruited from Iwate to brew all over the country. The Nanbu Toji are known for creating sake with an especially clean and clear taste. Due to its northern positioning, in Iwate the temperature is colder. This has naturally led the Nanbu Toji to develop brewing techniques centered around longer fermentations at colder temperatures, which are particularly favorable to *Ginjo* grade sakes.

Asabiraki uses locally grown *Miyamanishiki* rice as well as *Gingiga* sake rice, a varietal they themselves developed to naturally suit the region's environment. This, combined with the use of their own proprietary strain of yeast, helps create sakes of distinction, complexity and serenity.

### TASTING NOTE

This sake reflects a great typicity of the premium water of Iwate Prefecture.

Aroma of steamed rice, dashi broth, and a touch of floral jasmine notes.

On the palate depth and complexity with a hint of umami.

A 'super dry' sake.

### FOOD PAIRING

Creamy soups, fried chicken, vegetable tempura would be excellent pairings.

Avoid pairing with spicy or acidic food.
