

NEBEL

Riesling

Rheinhessen QBA, Germany

VARIETY

100% Riesling

PRODUCTION

Grapes are individually hand picked and carefully pressed before being cold fermented in a small stainless-steel tanks at controlled temperatures.

VINEYARD

Vines for Nebel grow along the rolling hills of the Rhine River in loess soil (windblown silt with sand and some clay). The Rheinhessen enjoys relatively cool climatic conditions, where the long ripening period allows Riesling grapes to develop their fine, fruity aromas in the late autumn sunshine.

TASTING NOTE

This aromatic Riesling shows bright citrus and floral notes on the nose. On the palate, white peach and grapefruit flavors abound. A hint of sweetness is matched perfectly by green apple-like acidity leading up to a clean, honeyed finish.

FOOD PAIRING

A very versatile style. Try pairing with spicy Asian, Tex-Mex and Cajun foods, and lighter preparations of fish, pork and chicken.
